J. Christian Haasis IV

Charlotte, NC | jchaasis@gmail.com | hacksis.it | www.github.com/jchaasis

Objective

To obtain a Junior Front-End Developer position at a global or national company to help build and maintain technical solutions by applying my knowledge, strong work ethic, and problem solving skills.

Skills

Javascript, ReactJS, Redux, Node.js, HTML, CSS, Git

Relevant Experience

The Iron Yard   **July 2017 - Nov 2017**

The Iron Yard is a 12-week coding bootcamp specializing in highly focused, immersive training centered on language fluency, object-oriented programming, and project-based learning.

- Vamp - Final team project for The Iron Yard. Event finder app built with React and Redux.
  - Users can add events or view events going on around them via a map based UI.
- Boat Yard - A marina management application built with React, Redux, and React Router.
  - Boat Yard simplifies the marina management process. Users can manage multiple marinas and keep track of the duration at which a boat is docked in a slip.
- Gabble - A social media application built with Node.js and Sequelize.
  - Users can able to create an account, post messages, and "like" other Gabber's messages.

Wyndham Capital Mortgage   **Oct 2016 - May 2017**

Professional Mortgage Consultant

- Analyzed credit worthiness, calculated risk and provided unique financial solutions based off of customer applications, credit reports, and assorted documentation
- Adapted solutions as new information arose and client's needs changed

KW Beverage Associates, LLC (distributor of Anheuser-Busch)   **Sept 2015-March 2016**

Intern, and then Interim Inventory Coordinator

- Utilized the VIP Inventory System to record inbound loads, reconcile on-hand inventory, and track outbound loads for over $5 million of inventory

Education

College of Charleston, Charleston, SC   **August 2015**

B.S. in Business Administration with a concentration in Global Logistics and Transportation
